Education

Rochester Institute of Technology • Class of 2021
B.S. in New Media Design, Minor in Game Design, Immersion in Japanese

Experience

Instrument • Design Intern • Summer 2020

Worked on full UI/UX, motion graphics and prototyping work for a Microsoft internal tool. Created motion graphics and animations for Salesforce, and worked on various prototypes and UI projects for both Sonos and Zwift. Created a Vue.js framework for an internal Get Out the Vote campaign.

Two Bulls • Creative Intern • Summer 2019

Created a UI and UX framework for a React.js evolutionary design system, and worked to create a series of illustrations and characters for a themed celebration of the team.

School of Design, RIT • Research Assistant • Spring 2019

Worked to assist in the design and development of materials, a mobile application, and website to help people combat violence and extremism in their communities. Responsible for web design and development in Figma and Jekyll.

Skills

Interaction	Visual	Software	Languages
User Research	Illustration	Adobe Suite	Java
